

HEALTH ALERT

Public Notification Announcement

Between 1:00 pm, April 15, 2008 and 7:30 am, April 16, 2008, an overflow of approximately 1000 - 2000 gallons of stabilized liquid bio-solids occurred at the Wicomico Shores Wastewater Treatment Plant, located at 35757 Golf Course Drive, Chaptico, Maryland. This overflow occurred as a result of operator error. The area affected includes portions of Luckland Run, which is a tributary of the Wicomico River. Swimming or other direct public contact should be avoided for seven days to the waters of Luckland Run downstream to the Wicomico River. Please contact the Metropolitan Commission at (301) 373-4733 for additional information.
